About Us

We are a Native-led organization comprised of professionals who have accumulated years of experience working for tribal health programs. We've been where you are now.

Our team includes licensed and certified specialists in Community Health, Nursing, Behavioral Health, Billing & Coding, Skills Training, Grant Management, Policy Development, Program Administration and more.

Our Core Values

INTEGRITY- Transparency and honesty guide our interactions with others to build trust and foster strong relationships.

COMPASSION- The connection that drives us to understand, support, and uplift one another fostering a sense of belonging and community.

COLLABORATION-Bringing together different viewpoints and skills can create new ideas and make a positive difference in our communities.

SUSTAINABILITY- The initiatives we work on together should not only thrive but continue to positively impact communities for years to come.

Our Promise to You

Our only agenda is helping you meet your goals. We promise to:

1. Provide a thorough program assessment. We will listen to your workforce and together we will determine what services will best serve you and your community.
2. Develop a Scope of Work that is specific to your program needs. No cookie-cutter programming because every community is unique.
3. Ensure a pricing model that benefits you. We support tribal program sustainability; therefore, our services will help you increase your revenue.
4. Offer holistic services that reflect the needs of your staff and community.
