About Us

We are a Native-led organization comprised of professionals who have accumulated years of experience working for tribal health programs. We've been where you are now.

Our team includes licensed and certified specialists in Behavioral/Mental Health and Substance Use, Community Health, Nursing, Billing & Coding, Skills Training, Grant Management, Policy Development, Program Administration and more.

Our Core Values

INTEGRITY- Transparency and honesty guide our interactions with others to build trust and foster strong relationships.

COMPASSION- The connection that drives us to understand, support, and uplift one another fostering a sense of belonging and community.

COLLABORATION-Bringing together different viewpoints and skills can create new ideas and make a positive difference in our communities.

SUSTAINABILITY- The initiatives we work on together should not only thrive but continue to positively impact communities for years to come.

Our Promise to You

Our only agenda is helping you meet your goals. We promise to:

1. Provide a thorough program assessment. We will listen to your workforce and together we will determine what services will best serve you and your community.
2. Develop a Scope of Work that is specific to your program needs. No cookie-cutter programming because every community is unique.
3. Ensure a pricing model that benefits you. We support tribal program sustainability; therefore, our services will help you increase your revenue.
4. Offer holistic services that reflect the needs of your staff and community.

Contract Behavioral Health Services

Culture is Healing

Promoting healing practices that encompass a holistic approach, recognizes the interconnectedness of the individual's mind, body, and spirit with community, the environment, and the spiritual world.

Ask us how we support...

Clinical Supervision
Mental Health Counseling
Substance Use Disorders
Intensive Outpatient Treatment
Integrated Traditional Medicine
Harm Reduction/Prevention
Treatment for Healing to Wellness
Courts-Juvenile & Adult
Grant Writing/Management
External Program Evaluation
Program Administration

Our Clinical Services

Our clinical team includes licensed individuals with experience working for tribal behavioral health programs, including individuals involved in the tribal court system. Our staff includes both indigenous and non-indigneous clinicians and social workers as well as an LPCC, who is State certified to provide Clinical Supervision.

Our mission is to support tribal health sustainability. We do this by structuring our services in a way that best supports your programs financially. This includes either providing direct services or providing contracted services.

Direct services include managing all of the billing services. Contract services may be most beneficial for tribes who have Title I or Title V P.L. 93-638 contracts or compacts. We want you to maximize your reimbursements to support sustainability of your programs.

We can offer:

- Clinical Supervision
- Individual counseling (all ages)
- Group counseling, to include a variety of culturally relevant support groups
- Family, Marriage & Partner Counseling (LGBTQIA+ and two-spirit friendly)
- (Non-forensic) Psychological Assessments
- Intensive Outpatient Programming
- Referrals to Medication Assisted Treatment (MAT/MOUD)

Customized Billing Systems

We offer a personalized billing database tailored for your unique programs to ensure accurate record keeping and protection of tribal data sovereignty.

The internal billing database helps you maximize your third-party billing claim submissions and reconciliation.

This affordable system enables you to keep more of your revenue rather than paying for costly subscriptions or contracts. You decide what data you want to collect instead of relying on a generic system.

An affordable and personalized Electronic Health Record is also available.
